Holiday Homework – Winter Break (2019-20)
Class -3

Dear Children

It's vacation time again! Sit & play in the sun for some time. During the cold wave or icy chill stay indoors and do some interesting and innovative activities to make your vacations fruitful.

- **Follow your regular bed time schedule. Observe silence time and do simple yoga exercises to keep yourself fit.**
- **Learn to dress up yourself, button up your shirt and tie your shoe-laces.**
- **Cherish and celebrate happy moments with your family by eating together and playing indoor games.**
- **You feel happy when you spread love and warmth everywhere. Care and share your time with the underprivileged to bring a smile on their faces in this chilly weather.**
- **Look after your health, hygiene and nutrition and do not forget to love yourself.**

Read for Pleasure: Books are child's best friend. Read any one book from the books listed and complete the assignment given below.

- *Great Stories for children by Ruskin Bond*
- *The Magic Ice-Cream by Enid Blyton*

Write a letter to the author to share one good thing that you liked in the story. Also suggest one change in the story which you feel should be there and give your reasons for the same.

English

Q.1. (a) Interview a person from your neighbourhood whom you really admire. Use the given questions for the interview. The questions are related to their childhood, studies and on their journey to success.

Q.1. Who was the closest to you in your family? Why?

Q.2. What were the means of recreation in your times?

Q.3. Which was your favourite subject during your school days? Why did you like it?

Q.4. What was your ambition as a child?

Q.5. What steps did you take to achieve it?

Q.6. What facilities were available in your time which aided you to achieve your ambition?

Q.7. Who was the inspiration for you in your childhood?

(b) Write a short paragraph on your experience and learning from the interview on a separate punch sheet. You must write about the difference that you feel was there in the olden times in comparison to the present day.(with respect to the technology, means of recreation and facilities available for achieving your ambition)

Q.2. Read the given passage and underline the irrelevant information that does not match to the content of the passage.

Grace's Birthday Party

It was Grace's birthday. She was having a party at her house. She helped her mom and dad set up balloons and tables for the party. There was huge shop next to Grace's house. When the kids came, they played games. Then Grace blew off seven candles and they all ate the cake. Grace had finished all her homework. Next, they all unwrapped all the gifts. The best gift was a friendship bracelet from her friend, Jane. Grace's brother was a great football player. Grace thanked everyone for the gifts. Then all the kids went home.

Q.3. Read the given passages and give suitable titles for the same.

a) There lived a black sheep in a nearby village. Every spring, he shaved his black wool and sold it to the villagers. The villagers made sweaters and socks from his black wool. One day, the black sheep noticed that he had some more wool left. He thought, 'It would be such a waste if nobody wants to buy the wool.' That afternoon, an old man came over to his wooden shed to see him. He wanted one bag full of the black sheep's wool. Then an old woman came over. She also wanted a bag full of wool. A short while later, a little boy arrived. He also wanted one bag full of wool. Therefore, the black sheep prepared three bags full of wool for them. He was happy that all of his wool was sold off.

b) A woman had a pet mongoose. It was very faithful. One day she went to the market, leaving her baby in the care of the mongoose. At that time a big cobra entered the house. The mongoose killed it after a long and fierce fight. When the woman came back she saw the mongoose lying at the entrance. She noticed its blood-covered mouth. In her haste the woman thought that the mongoose had killed her baby. In a moment of sudden fury, the woman threw the water pot on the mongoose and killed it. When she entered the house she was filled with guilt. Her baby was playing cheerfully. Nearby a big cobra lay dead. The woman shed tears of grief but it was too late.

Q.4. Write a passage of 60 words on the given topic on a punch sheet and draw a picture related to it.

You open the door one morning and find a strange huge box kept in front of it. What do you find inside? What do you do next?

Math

1. Do the worksheet

Track your diet. From 1st January to 10th January religiously for the items mentioned in the record sheet. (given on the next page)

2. Every time you consume an item record it in the tally chart. After completing the record sheet answer the questions given in it.

Science- Project Work (Water as a resource)

Purpose – To understand the importance of water as a depleting resource

Project Description – Write a slogan to conserve water on a punch sheet with a drawing.

Social Studies.

Prepare a chart or model of the solar system. Add a slogan to it to conserve our environment.

Name: _____

Class 3 ____

**My Diet Chart from 1st January to 10th January
Record Sheet**

Item	Tally Marks
candy	
chocolate	
pizza	
green veggies	
burger	
chocos	
samosa	
fruits	

Answer the following questions on the basis of your record sheet

1. Which item did you consume the most in last ten days?

2. Which item did you consume the least number of times?

Winter Holiday Homework
Subject: Mathematics

(Numbers and Place Value, Addition, Subtraction, Multiplication, Division, Money
Shapes and Patterns, Measurement (Length, Weight, Capacity and Time))

Name: _____

Class: 3 ____

Date: _____

Roll No. ____

Q1. Answer the following:

- Give a pair of numbers whose sum is 60 _____
- A cylinder has _____ faces and _____ edges.
- What is the difference in the place value of the two 8s in 3868? _____
- I have 6 faces of the same size, 12 equal edges and 8 vertices. Who am I? _____
- Write the multiplication fact of $121 \div 11 = 11$ _____

Q2. Fill in the blanks

- | | |
|----------------------|-----------------------|
| a) 10m = _____ cm | f) 3L = _____ ml |
| b) 1000mm = _____ cm | g) 10L = _____ ml |
| c) 82km = _____ m | h) 6L = _____ ml |
| d) 92cm = _____ mm | i) 6000mL = _____ L |
| e) 6000m = _____ km | j) 10,000ml = _____ L |

Q3. Circle the correct answer

- a. After distributing 76 toffees to his classmates, Ram still has 30 sweets left in his bag. How many sweets did he take initially?

75-30

76+30

76-30

- b. In 5495, the digit 4 stands for _____

- a) 4 ones b) 4 tens c) 4 hundreds d) 4 thousands

Q4. If $8 \times \underline{\quad} = 40$ then $40 \div 8 = \underline{\quad}$

Q5. Complete the series:

- a) 0, 4, 8, 12, _____, _____, _____, _____
- b) 9, 12, 15, 18, _____, _____, _____, _____
- c) 20, 35, 50, 65, _____, _____, _____, _____
- d) _____, _____, _____, 29, 26, 23, 20, 17
- e) 68, 85, 102, _____, _____, _____, _____

Q6. Solve the following using the properties of addition, subtraction, multiplication and division.

- a. $68 \times \underline{\hspace{2cm}} = 680$
- b. $892 = 430 + \underline{\hspace{2cm}}$
- c. $900 - \underline{\hspace{2cm}} = 345$
- d. $90 \div 15 = \underline{\hspace{2cm}}$

Q7. While participating for an upcoming match Rohan hit 144 golf balls on Friday, on Saturday and Sunday he hit 259 golf balls. How many balls did he hit during the practice?

- a) 385 b) 403 c) 298 d) 115

Q8. Solve the following word problem

Manu has 753 kgs of wheat. He distributed 25 kg of wheat among his helper's family. How much wheat is left with him?

Answer:

Q9. 9 people bought the cake from the City Bakery at Rs.85/- each. What amount did they pay to the shopkeeper?

Q10. HOTS Question :

Raj puts Rs.125 in his Piggy Bank daily.How much will he save in a week?

Q11. Convert the following rupees into paise-

1) Rs. 39.80 _____

2) Rs. 65.35 _____

Q12. Convert the following into rupees-

1) 7895paise _____

2) 2455 paise _____

Q13. Fill in the missing numbers :

$$\begin{array}{r} \text{a) } 48 \quad \square \\ - \quad \square \quad 35 \\ \hline \end{array}$$

$$\begin{array}{r} \text{b) } 9 \quad 8 \quad \square \\ - 5 \quad 2 \quad \square \\ \hline \end{array}$$

$$3 \quad 4 \quad \square$$

$$\square \quad 5 \quad 9$$

Q14. Prepare a cash memo for Ria. He bought 2 strawberry muffins for rupees 96/- each, 2 blueberry muffins for rupees 82/- each and a chocolate cake for rupees 646/-. He paid rupees 2000/- to the shopkeeper. How much money will he get back from the shopkeeper

s.no.	Description	Qty	Rate	Amount
Total				
Cash Paid				
Change returned				

Divide using long division method:

409 by 7

957 by 8

Q 18. Write the given time in words:

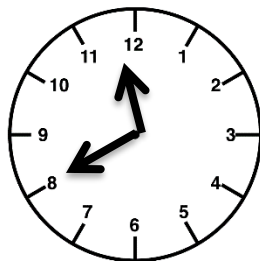

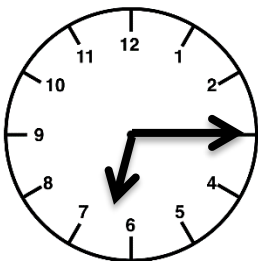

a. 2:55 - _____

b. 11:02 - _____

c. 12:40 - _____

d. 9:50 - _____

Q19. Read the clock and write the time:

Term 4

Winter Holiday Homework
Subject- English Grammar

Topics- Articles, Nouns, Pronouns, Adjectives, Prepositions, Punctuations, Verbs, Adverbs,
Conjunctions

Name- _____ Roll No.- _____ Class 3- _____

I. Read the given passage and answer the questions that follow:

Rainbows are often seen when the sun comes out after or during a rainstorm. Rainbows are formed when sunlight shines through drops of water in the sky at specific angles. When white sunlight enters a raindrop, it gives the raindrop a different colour. When light exits from lots of different raindrops at different angles, it produces the red, orange, yellow, green, blue, indigo, and violet colours that you see in a rainbow. Together, these colours are known as the spectrum. These colours can sometimes be seen in waterfalls and fountains as well.

Did you know that there are double rainbows? In a double rainbow, light reflects twice inside water droplets and forms two arcs. In most double rainbows, the colours of the top arc are opposite from those in the bottom arc. In other words, the order of colours starts with purple on top and ends with the red on bottom. In addition, rainbows sometimes appear as white arcs at night. These rainbows are called moonbows and are so rare that very few people will ever see one. Moonbows are formed by moonlight (rather than sunlight) shining through drops of water.

Q.1. How are rainbows formed?

Ans. _____

Q.2. Where else do we see the spectrum other than a rainbow?

Ans. _____

Q.3. What are moonbows?

Ans. _____

Q.3. Write the antonym of the given words from the passage.
